Artificial Intelligence

SQA Unit: HT9T 34

- 1 Higher National Unit credit at SCQF Level 7: (8 SCQF credit points at SCQF Level 7)
 - At the completion of the unit:
 - Students will understand the historical development of AI, including its relationship with a number of distinct disciplines, how narrow and general AI is currently used, and how it could be used in specific vocational areas.
 - Students will also appreciate its likely impact upon employment and the ethical dilemmas that it poses.
-

Learning Outcomes

1. Describe the historical development of artificial intelligence, machine learning and deep learning.
2. Describe contemporary applications of artificial intelligence systems.
3. Solve a problem in a specific vocational field using artificial intelligence.
4. Explain the ethical implications of artificial intelligence for society.
