

Encrypted Email – Practical

1. Using the Internet navigate to <https://protonmail.com/>
2. From here select the sign up option in the top right hand of the page

The ProtonMail mobile apps are now available worldwide.

3. Now select the free email option

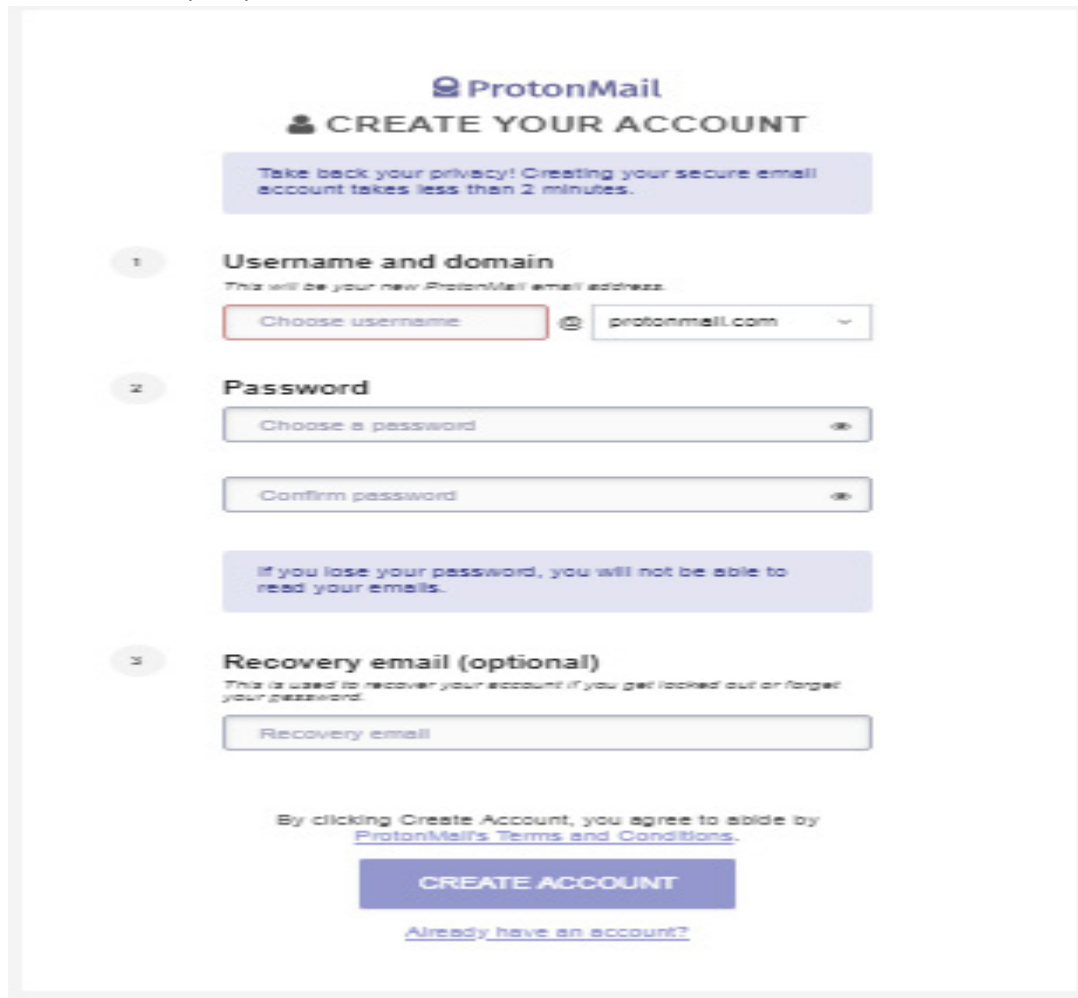

Select Your ProtonMail Account Type

ProtonMail is a free email service for the public good. You can help support online privacy by selecting a paid account. Your contribution helps us support more users and continue to develop ProtonMail as free and open source software.

FREEBasic account with limited features▼

4. Once you have selected the free option you will then be prompted to enter some details to create your encrypted email account. When choosing your Password please make sure you follow the complex password structure

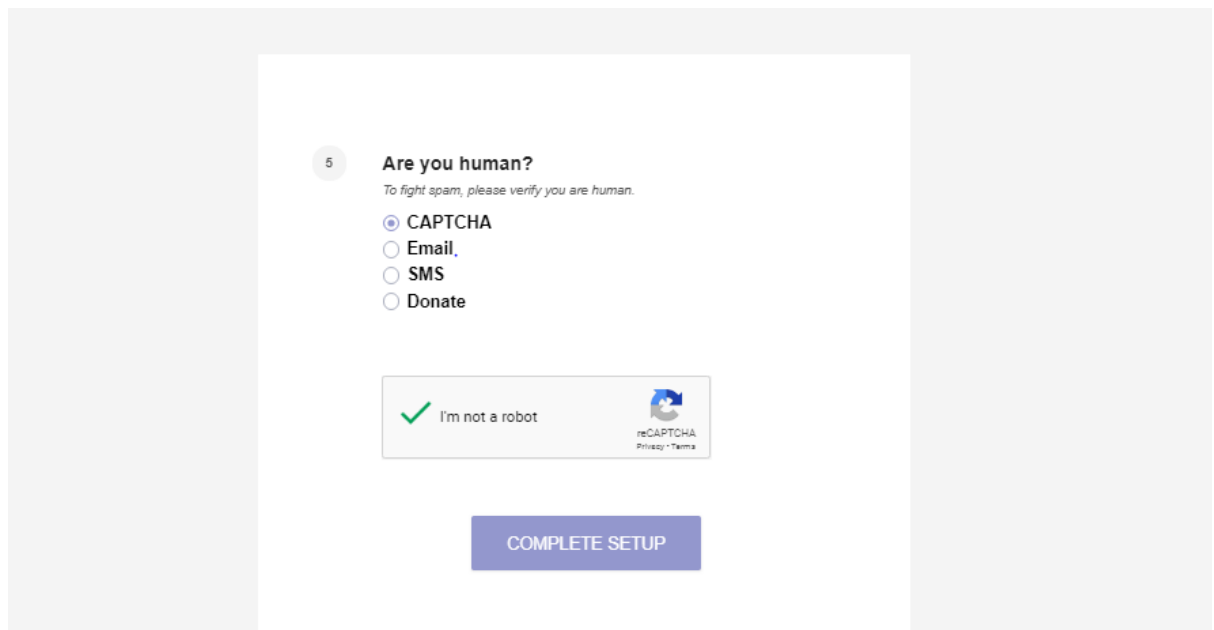

The image shows the ProtonMail account creation interface. At the top, the ProtonMail logo is displayed above the heading "CREATE YOUR ACCOUNT". A purple banner below the heading states: "Take back your privacy! Creating your secure email account takes less than 2 minutes." The form is divided into three numbered steps:

- 1 Username and domain**
This will be your new ProtonMail email address.
There is a text input field labeled "Choose username" and a dropdown menu showing "protonmail.com".
- 2 Password**
There are two text input fields: "Choose a password" and "Confirm password". Below these fields, a purple banner states: "If you lose your password, you will not be able to read your emails."
- 3 Recovery email (optional)**
This is used to recover your account if you get locked out or forget your password.
There is a text input field labeled "Recovery email".

At the bottom of the form, there is a line of text: "By clicking Create Account, you agree to abide by [ProtonMail's Terms and Conditions](#)." Below this is a large blue button labeled "CREATE ACCOUNT". At the very bottom, there is a link: "[Already have an account?](#)".

5. Once you have created your password, navigate to https://www2.open.ac.uk/openlearn/password_check/ and check the strength of your password. Note down the score of your complex password

6. After you have entered all your details click create account now, you will then be asked to verify that you are a human, once you have done this click complete setup

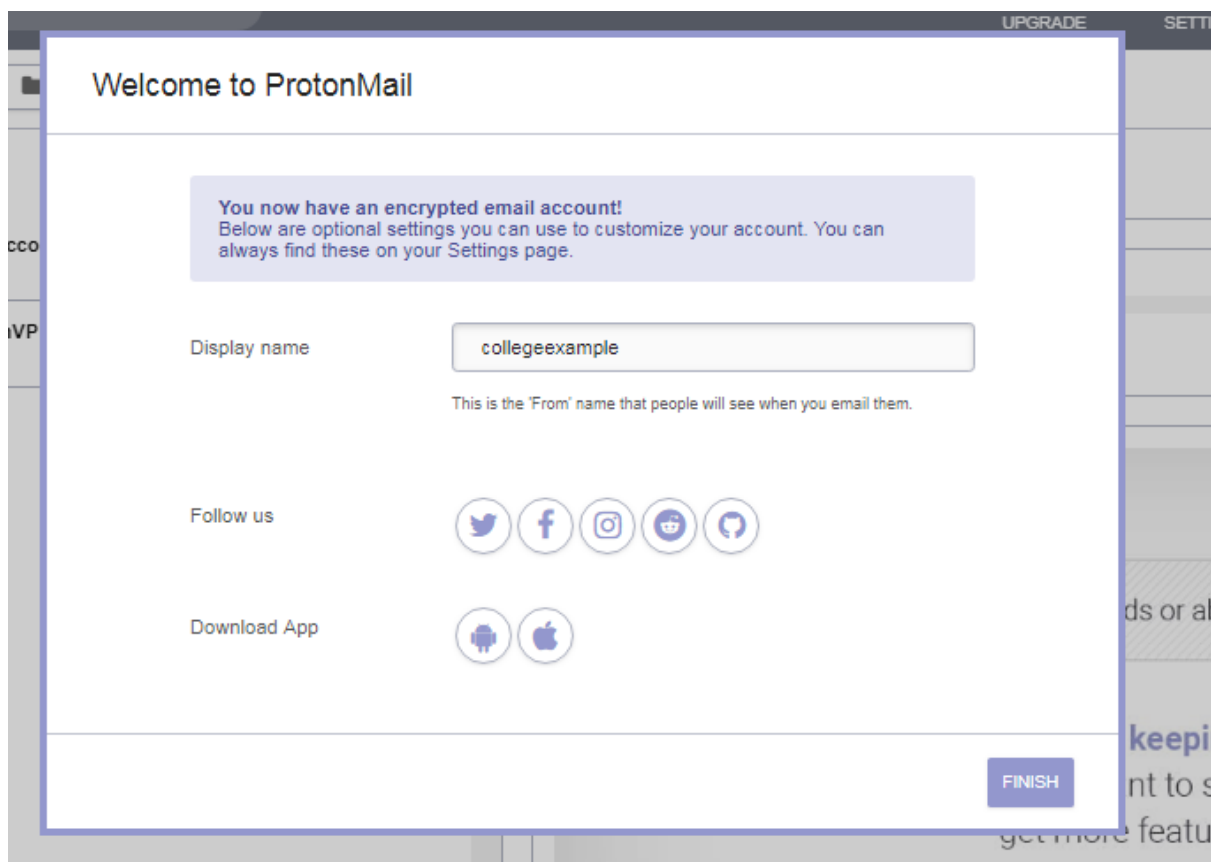

5 **Are you human?**
To fight spam, please verify you are human.
