

Presentation Task 2

LECTURER: MARK GILLAN

Edits

- Open the **present1** file from the first presentation exercise
- Change the theme / colour scheme
- Edit the title of the last slide to now read: Finally
- Increase the font of the title on the last slide
- Alter the font and use italics for the title slide (first slide) with a different coloured font
- Change the layout of a slide to now include an image or to remove an image
- Save the edited presentation to the same folder as previous, naming the file: present2
- Show the presentation to a classmate, running through the slideshow with information
