Task 5		
Your lecturer will give you a deadline for completion of this task You are now required to review and evaluate your findings as described below:		
(a) Evaluate your findings to ensure they meet any required criteria you defined in the original overview of the topic; for example, have you: - remained focused on the topic originally defined? - accurately summarised the main points you found through your investigation?		
(b) Evaluate your own performance throughout the investigation; for example, consider: - how effectively you carried out the research? - what you learned from carrying out the investigation? - what you might do differently next time?		
(c) Review the time management techniques used throughout the project; for example: - how did you set and work to deadlines? - how did you track and check your use of time?		
(d) Finally, evaluate the selection of information sources you have used; for example: were they appropriate in terms of being authentic, reliable, up-to-date, accurate, relevant?
