

Mobile Technology: Web Page Creation

Exercise 5: Project Plan

The Plan

- › Start thinking about planning a website that will show the world your knowledge
- › Consider the learning from the previous exercises
- › It's important to plan
- › Showcase your learning, knowledge, skills and think of a website that will excite the visitor
- › Plan the navigation, elements for each page, necessary files, layout and think about everything covered already in this unit to ensure your website meets all requirements including mobile technologies
