

OUTCOME 3

Instructions, Task 1 , Task 2 and Task 3

Lecturer: Mark Gillan

OUTCOME 3 - INSTRUCTIONS

Minutes

- In collaboration with team members implement your project plan.
- Throughout this process, review and maintain progress through regular team meetings.
- Minutes should be recorded for any meetings held.

Logbook / Team diary

- Throughout the implementation process maintain a regular record of work carried out in a team diary or log book.
- The logbook should be updated at least once a week and describe work carried out and/or tasks completed by all team members.
- (Each team member should be noted as to what they provided to the team for that week).

OUTCOME 3: TASK 1

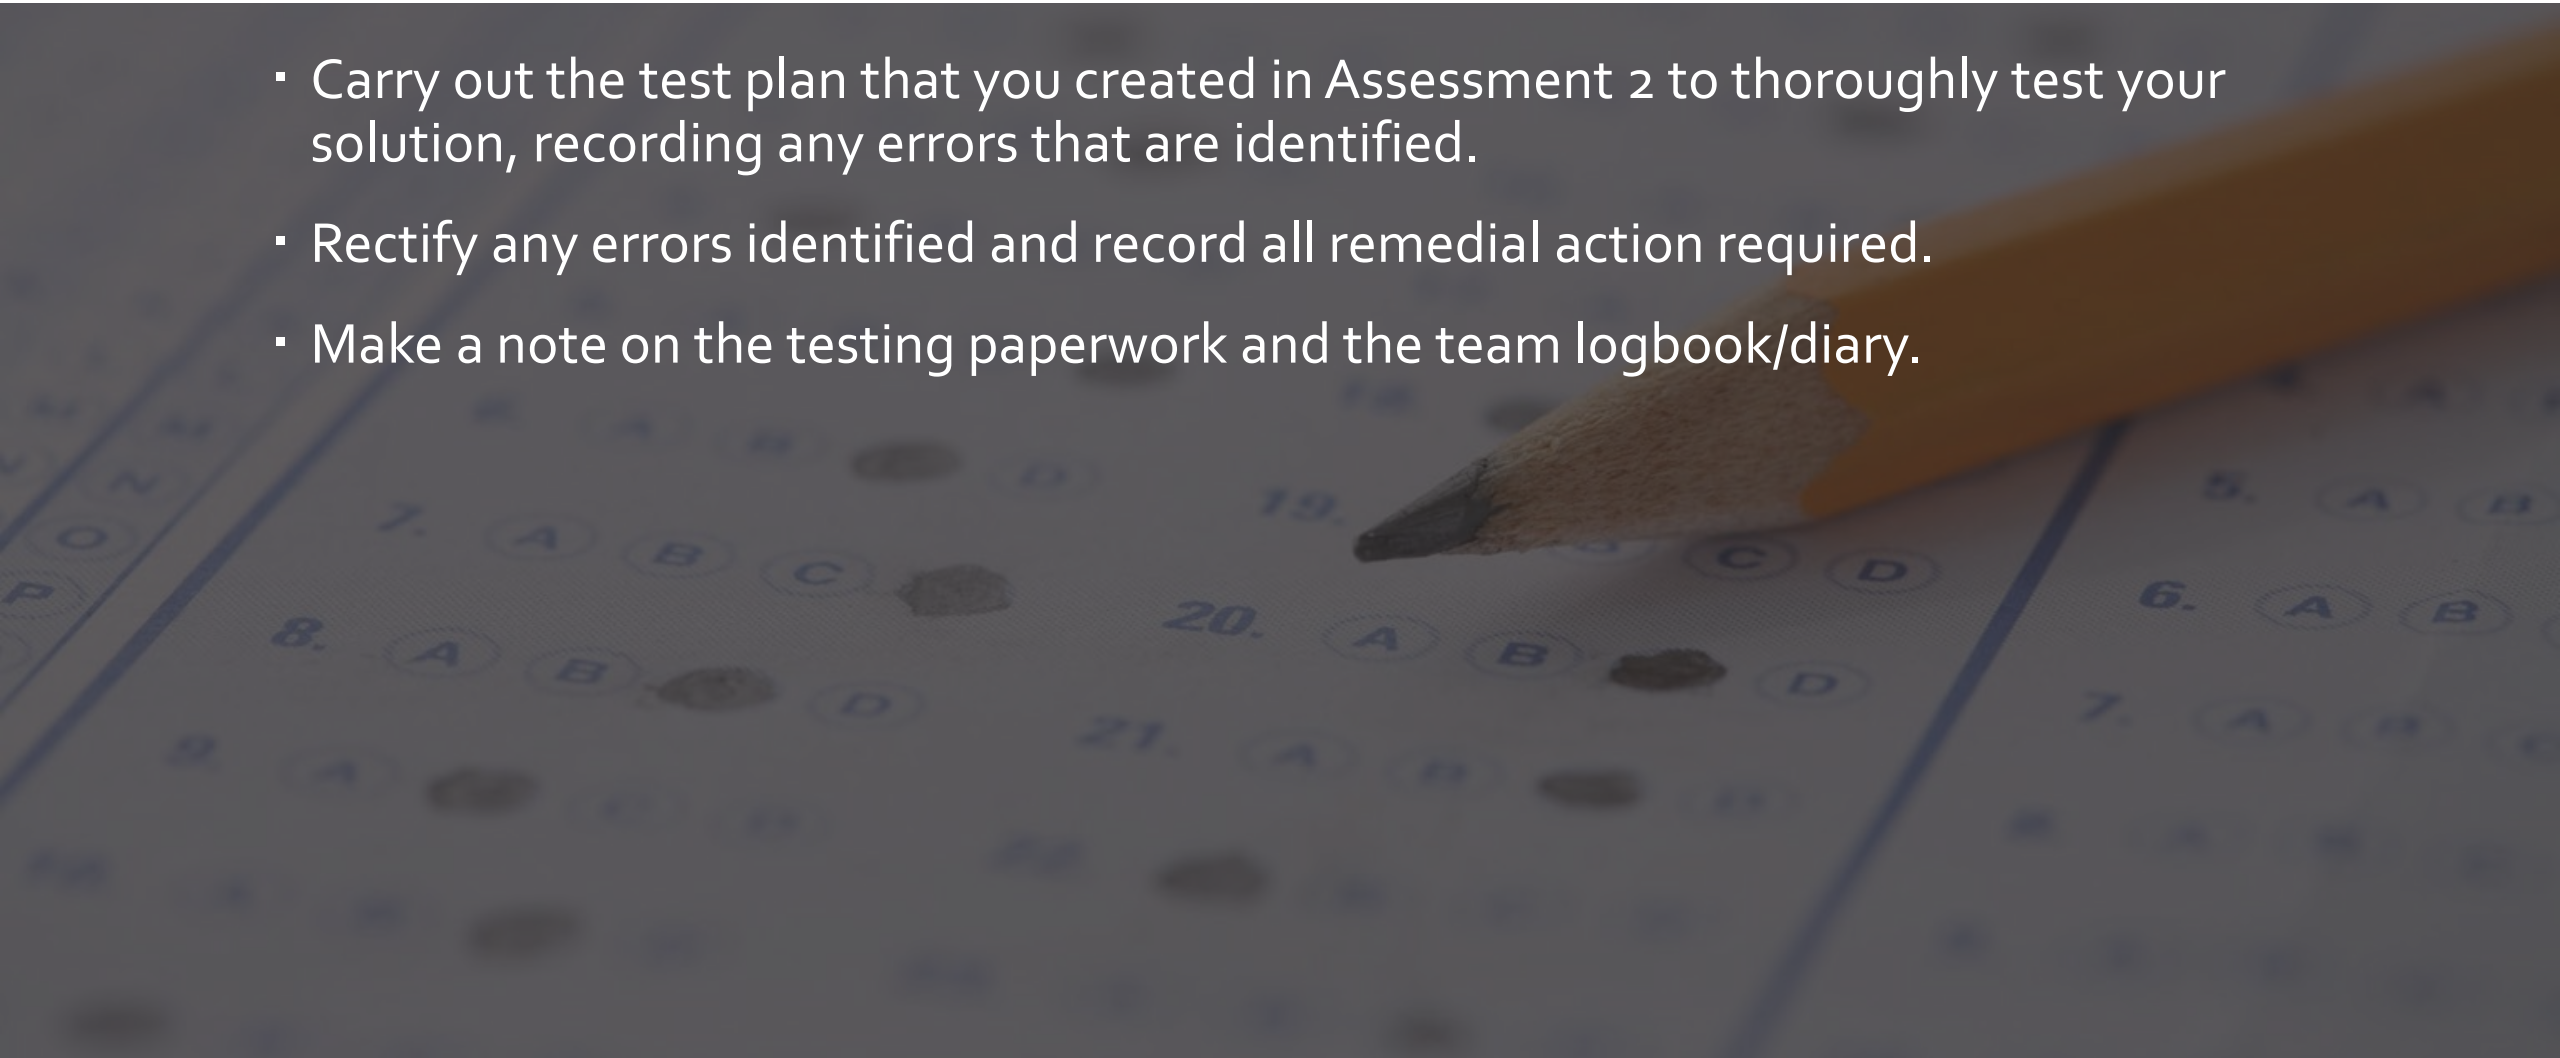

Implement your solution by carrying out the key tasks identified in the project plan by making appropriate use of the resources also specified in the project plan.

The design document should be used as a guide to the creation of your solution.

OUTCOME 3: TASK 2

- Carry out the test plan that you created in Assessment 2 to thoroughly test your solution, recording any errors that are identified.
- Rectify any errors identified and record all remedial action required.
- Make a note on the testing paperwork and the team logbook/diary.

OUTCOME 3: TASK 3

After thoroughly testing your solution,
demonstrate it to your lecturer.
