

# PRE-ASSESS: PRACTICAL TASK (ASSESSMENT 2)

Lecturer: Mark Gillan

# TASK

- You are a College Lecturer
- Students have asked for a video tutorial (script only required) and brief summary handout with instructions and guidance related to a Graded Unit topic
- The topic should be something you would like to refresh yourself / study / learn
- Be precise with the topic and consider the best way for a student to be provided with the information
- Ensure you capture screenshots of the 'framework' used, explain the framework and how you have used AI alongside the screenshot evidence, including any modifiers and the final product as to how you got there

# FRAMEWORKS ACT PLUS REMINDER OTHERS...

- RCAF – Role, Context, Action, Format
- RISE – Role, Input, Steps, Expectation
- APE – Action, Purpose, Execution
- COAST – Context, Objective, Actions, Scenario, Task
- TAG – Task, Action, Goal
- TRACE – Task, Request, Action, Context, Example
- CARE – Context, Action, Result, Example

# CHAIN PROMPTS REMINDER

Insert the first prompt

Example: Give me a summary of document/video

Modify the output

Example: Use the summary to write 500-word essay

Modify the tone

Example: Change the tone and make it more casual

Modify the format

Example: Convert the answer into a presentation
