

Worksheet

Pie Charts and use of Angles

1. Footware is being sold from a 'barra' and the owner wants a visual representation of the sales. She has asked for your help.

Plot the following data onto a Pie Chart ensuring the correct angles are used to represent the data for each segment of the pie.

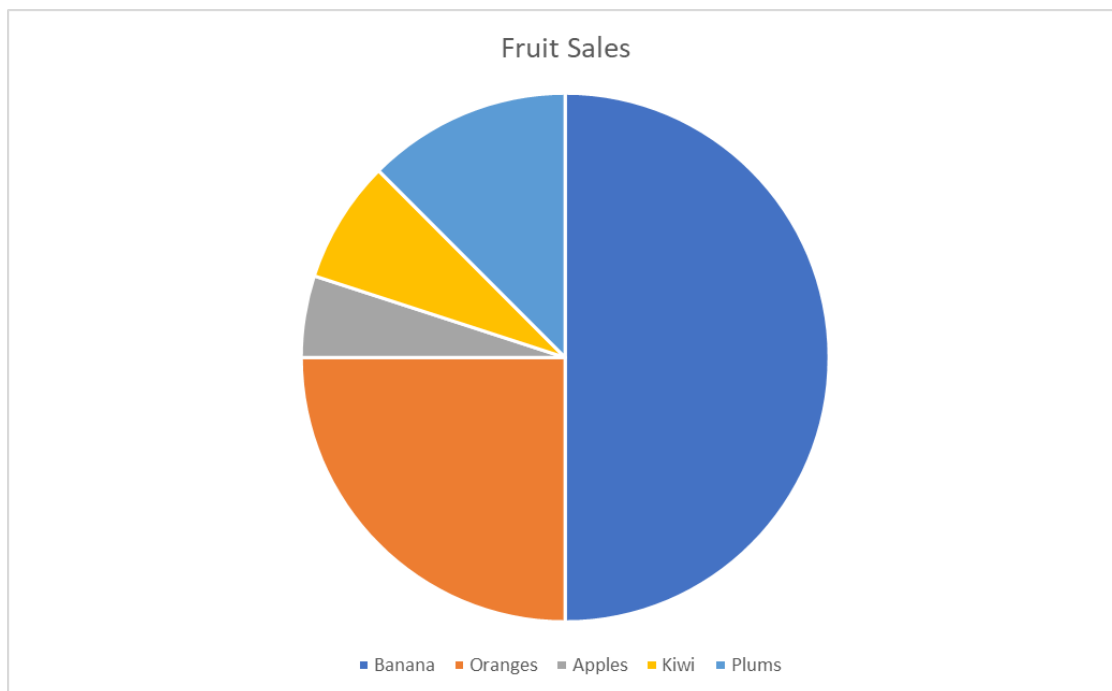

Footwear	Slippers	Trainers	Boots	Shoes
Number of pairs	50	100	45	5

ANSWER (Pie chart with relevant angles):
